15	2023-02-15	Felix Hilgers	Benedikt Zinn	Everyone else		Georgina Goldschmidt	Retrospective	
Product owners, software developers, and Scurm Master are set and ideally don't change over time; the critical part is the Release Manager role you need to define here								

<b>Goals</b>	Development of a visual perception system for robots with an accuracy of >= 90%
<b>Meeting norms</b>	<p>Zoom-Meetings in the meeting room of the university.          Joining the meeting is mandatory, with exceptions (like sickness, etc.).          As an exception, showing up to 10 minutes late is fine if the team is informed via discord.          Happiness Index: has to be completed at the end of the meeting (amos happy).          Stand-up-mails: containing -&gt; things done, problems encountered, things up next.          -&gt; For SDs: min 2x per week          -&gt; For POs: min 1x per week</p>
<b>Working norms</b>	<p>Issues on Github in the “Feature board” project of the repository.          Definition of Done: If specified in the issue that the feature has to be tested, tests have to be written for that feature, documented (in code or later in the wiki)          Git-branches:          The latest commit on the main-branch has to be tagged.          Only 2 “in progress” tickets per person at one time.</p>
<b>Coordination norms</b>	<p>Developers can create issues but not put them onto the “Feature board”.          If blocked by a different task, discuss it as soon as possible.          Communication should happen via Discord &amp; mail.          Criticism should be constructive. Language should be respectful at all times, both verbal and written communication.</p>
<b>Communication norms</b>	<p>Developers can create issues but not put them onto the “Feature board”.          If blocked by a different task, discuss it as soon as possible.          Communication should happen via Discord &amp; mail.          Criticism should be constructive. Language should be respectful at all times, both verbal and written communication.</p>
<b>Consideration norms</b>	
<b>Cont. improvement norms</b>	
<b>Rewards</b>	Online coffee or lunch meet at some point.
<b>Sanctions</b>	Document absence. Repeated absence is addressed with the missing person directly but will later be escalated to professors.
<b>Signatures</b>	
Scrum Master	Georgina Goldschmidt
Product owner	Felix Hilgers

Product owner	Benedikt Zinn
Software developer	Sarib Samdani
Software developer	Emil Badura

Product Vision	Project Mission
The reason of existence of the envisioned product (beyond this project).	The mission of this particular project (in the context of the product vision).

Term	Definition

Sprint #	Sprint goal
1	Meeting with industry partner and getting things started (and the T-shirt of course)
2	Start work on individual components and research unclear topics
3	Combining components into a first working prototype
4	Refining prototype and splitting out components
5	Finishing the Implementation of the Initial Architecture

#	Context	Name	Version	License	Comment	Status	Change Info
1	Frontend (React UI)	npm:react	18.3.1	MIT	UI framework	In Use	
2	Frontend (React UI)	npm:react-dom	18.3.1	MIT	DOM renderer for React	In Use	
3	Frontend (React UI)	npm:typescript	5.6.3	Apache-2.0	Type system for JavaScript	In Use	Version updated: 5.4.5 → 5.6.3
4	Frontend (React UI)	npm:vite	6.0.3	MIT	Build tool and dev server	In Use	Version updated: 5.2.0 → 6.0.3
5	Frontend (React UI)	npm:websocket	1.0.35	MIT	WebSocket client for metadata	Planned	
6	Frontend (React UI)	npm:webrtc-adapter	9.1.2	BSD-3-Clause	Cross-browser WebRTC compatibility	Planned	
7	Frontend (React UI)	npm:axios	1.7.2	MIT	HTTP client for REST API	Planned	
8	Frontend (React UI)	npm: zustand	4.5.3	MIT	State management	Planned	
9	Frontend (React UI)	npm:three	0.169.0	MIT	for 3D-visualization	Planned (optional)	
10	Frontend (React UI)	npm:@types/react	18.3.12	MIT	TypeScript definitions for React	In Use	New component
11	Frontend (React UI)	npm:@types/react-dom	18.3.1	MIT	TypeScript definitions for React DOM	In Use	New component
12	Frontend (React UI)	npm:@vitejs/plugin-react	4.3.4	MIT	Vite plugin for React support	In Use	New component
13	Frontend (React UI)	npm:eslint	9.17.0	MIT	Code linting	In Use	New component
14	Frontend (React UI)	npm:prettier	3.4.2	MIT	Code formatting	In Use	New component
15	Frontend (React UI)	npm:vitest	2.1.5	MIT	Unit testing framework	In Use	New component
16	Frontend (React UI)	npm:@typescript-eslint/eslint-plugin	8.16.0	MIT	ESLint rules for TypeScript	In Use	New component
17	Frontend (React UI)	npm:@typescript-eslint/parser	8.16.0	MIT	TypeScript parser for ESLint	In Use	New component
18	Backend (FastAPI API)	pypi:uvicorn	0.38.0	BSD-3-Clause	ASGI server for FastAPI	In Use	Version updated: 0.30.1 → 0.38.0
19	Backend (FastAPI API)	pypi:fastapi	0.115.10	MIT	Web framework for API	In Use	Version updated: 0.115.2 → 0.115.10
20	Backend (FastAPI API)	pypi:websockets	13.1	BSD-3-Clause	WebSocket server for real-time metadata	Planned (optional)	
21	Backend (FastAPI API)	pypi:grpcio	1.66.1	Apache-2.0	gRPC for AI service communication	Planned (optional)	
22	Backend (FastAPI API)	pypi:htpx	0.27.0	BSD-3-Clause	Async HTTP client	Planned	
23	Backend (FastAPI API)	pypi:pydantic	2.12.3	MIT	Data validation for FastAPI	In Use	New component
24	Backend (FastAPI API)	pypi:aiohttp	1.14.0	BSD-3-Clause	Python WebRTC implementation	In Use	New component
25	Backend (FastAPI API)	pypi:av	16.0.1	BSD-2-Clause	Audio/Video processing for aiohttp	In Use	New component
26	Backend (FastAPI API)	pypi:ruff	0.7.0	MIT	Fast Python linter	In Use	New component
27	Backend (FastAPI API)	pypi:pytest	8.3.3	MIT	Testing framework	In Use	New component
28	Backend (FastAPI API)	pypi:mypy	1.13.0	MIT	Static type checker	In Use	New component
29	WebRTC Signaling	go:pion/webrtc	3.2.35	MIT	Go WebRTC library for signaling service	Planned (optional)	
30	WebRTC Signaling	go:gorilla/websocket	1.5.2	BSD-2-Clause	WebSocket library for Go	Planned (optional)	
31	Image Analysis (Python)	pypi:opencv-python	4.9.0.80	Apache-2.0	Computer vision library	In Use	Version updated: 4.10.0.84 → 4.12.0.88
32	Image Analysis (Python)	pypi:numpy	1.26.4	BSD-3-Clause	Numerical operations	In Use	Version updated: 2.1.1 → 2.2.6
33	Image Analysis (Python)	pypi:torch	2.3.1	BSD-3-Clause	PyTorch ML framework	Planned	
34	Image Analysis (Python)	pypi:torchvision	0.18.1	BSD-3-Clause	Computer vision models for PyTorch	Planned	
35	Image Analysis (Python)	pypi:midas	3.1	MIT	for depth recognition	Planned	
36	Image Analysis (Python)	pypi:ultralytics	8.2.14	APGL-3.0	for computer vision	Planned	
37	Infrastructure/Deployment	docker:python	3.11-slim	PSF	Base container for Python services	Planned	
38	Infrastructure/Deployment	docker:golang	20-alpine	MIT	Base container for Go service	Planned	
39	Infrastructure/Deployment	docker:nvidia/cuda	12.4.1-base	NVIDIA Software License	GPU acceleration for AI inference	Planned (optional)	
40	Infrastructure/Deployment	helm:kubernetes	1.13.0	Apache-2.0	Container orchestration	Planned (optional)	
41	Infrastructure/Deployment	prometheus/prometheus	2.54.0	Apache-2.0	Monitoring and metrics	Planned (optional)	
42	Infrastructure/Deployment	grafana/grafana	11.1.0	AGPL-3.0	Visualization dashboards	Planned

<b>How to play planning poker</b>				
1. Everyone type their number into their value field, don't hit return yet				
2. Someone, perhaps a product owner, count down 3.. 2.. 1..				
3. Then, everyone hit return to submit their value				
				no cap yet
